Respiratory

Disposable respiratory protection

Complete range of disposable respiratory protection

APPLICATION

P1 protection for dusts associated with sawing, sanding, stripping, routing and power planing timber, as well as grinding, drilling and cutting masonry concrete and bricks. Also effective when using cement and household insulation material. P2 protection for more harmful substances ie silica, coal & lead dust, asbestos fibre, welding, soldering, zinc oxide fume, bush fire fighting, bacteria & fungi.

FEATURES & BENEFITS

Approved type & class to AS/NZS 1716–1994 Polypropylene P.P. outer layer of the respirators provides a more even resistance to loose fibres. Adjustable plastic nosepiece and double elastic headbands for comfort and customised protection. The low shape of the respirators allows the user to wear glasses/goggles without any discomfort.
